

Join our team and be rewarded!

The last 4 years have been the hardest most challenging years of my life and marriage as financial stress has taken its toll. When I first read about Funkykidz educational classes, I was intrigued by the Messy Play and the advantages it held for children as my own little girl has had sensory problems and being engaged in sensory play has helped her tremendously.

I have been a part of this wonderful team for almost three months now and the impact it has had on my life is extremely exciting for me. For the first time in 4 years I can have an active role in my children's lives because I am my own boss, I make my own hours and what I put into it is what I get out.

I have taken charge of making this a success with guidance from Chantal Hartley (Owner of Funkykidz). I have been working not only on private classes but in a pre-school environment that is still growing by the day. The excitement about a sensorpathic play class for children has been overwhelming because a schools curriculum and budget does not always allow children to create and explore on their own terms.

I have the freedom to help children grow and develop at their own pace and focus on their individual needs.

My financial situation is growing for the better and the pressure to help my husband provide has been lifted from my shoulders. I place attention on advertising and growth for my small business and I have been reaping the fruits of my labour.

I have amazing prospects for the new year and cannot wait to see what this opportunity brings.

To anyone who has been thinking about joining ,do not hesitate. This team is growing by the day ,be the captain of your own ship and reach for a better future for yourself and your children.

Being a part of this team makes me proud beyond believe!

Invest in your future and become a part of this Funky family.

Sincerely

Leandri Kapp - Middelburg MP

Active Play
FUNKYKidz
MESSYPLAY • ACTIVEPLAY • LITTLE CHEFZ PLAY

Working on gross motor skills helps children gain strength and confidence in his/her body. It also helps them get exercise and physical activity, which is important for a healthy lifestyle. Developing these skills helps a child's ability to do more complex skills in future activities, such as playing soccer with a team.
