

Our Star of the MONTH!!!!

MADISON CONRADIE

Madison Grace was born in August 2013 at a gestation of 23 weeks – so 17 weeks premature! After 116 days in hospital, we have had many challenges over the years with her development, related to her extreme prematurity but slowly she has overcome them all. We started her at a local playschool in January of this year in an attempt to get her ready for pre-primary (Grade 000) next year. However we found she struggled tremendously and almost “withdrew” and regressed. I then found your program quite by chance on Facebook and decided to remove her from the playschool and give it a try from Term 2. The results have been astounding!! She has come along in leaps and bounds, her confidence has grown and her fine motor skills are amazing. Even her speech has developed SO well over the last 2 months. I am a full time working mommy, so she stays with her granny all day who has been simply amazing with following your program and helping our little miracle to reach her milestones. Thank you SO much for a fantastic concept that is just PERFECT for Madison – we look forward to many more hours of fun and development in the next 6 months as we progress to “big school” next year.
