

Our Star of the MONTH!!!! Blake Watson!!!!

Blake is now 18 months old. He started The Clever Little Owl programme in April this year. He has always been an achiever but as a mom I can see over this last month and a half how he has just blossomed with knowledge. His vocabulary has increased from 1 word to 4. He understands simple instructions so much more. He is more confident to try new things. The Clever Little Owl curriculum is such fun and creative and I love that I can teach him in this way at home. As a first time mom this is probably the best thing I have ever done for my son. I am so looking forward to having more fun and watching him develop in the programme for the rest of the year and thereafter.

Want to be our star next month? Send us your success story!

Messy Play and why is it so important!!!!

Did you know that your little one can engage in messy play from as young as 5 months old?

Why is Messy Play Important?

Messy Play is an important part of early education. It offers many opportunities for learning. In designing a class for young children, it is crucial to foster growth in all areas of development.

Such as...

- **Physical Development**
- **Communication and Language Development**
- **Personal, Emotional and Social Development**
- **Intellectual Development**
- **Mathematical Development**
- **Creative Development**
