

Star of the Month.....

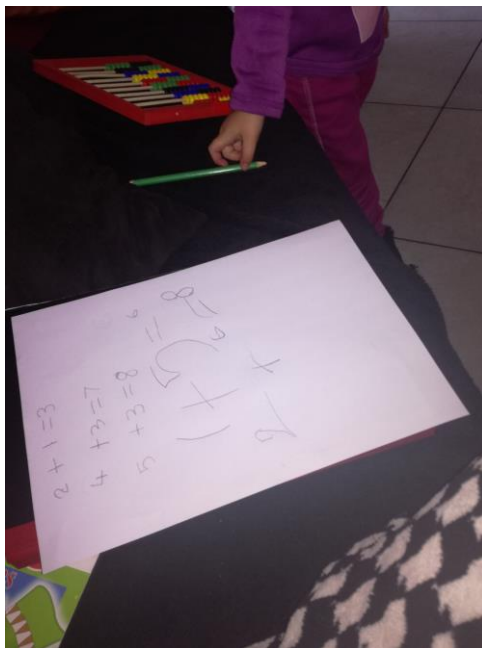

Haylie Ann-Allison Courtney.

Haylie was born on 20 February 2014. Haylie has always been so inquisitive and eager to learn new things but the activities I gave her lacked creativity and were not that fun at all. Since starting the Clever little owl curriculum her confidence has skyrocketed! She engages in imaginative play a lot more and has become a great problem solver. She can't wait to start her activities as soon as she opens her eyes every morning and if it were up to her we would be doing these activities all day and night. Every time we have guests she asks them to have a look at her work to see how clever she is before they even get their foot into the door! I am so proud of what my beautiful little Haylie has accomplished. I'm running out of space on my walls to display all her work that we are both so proud of!

Thanks to Chantal, learning has become fun and has made this home schooling adventure so much easier.

Kind regards

Chrisandra Courtney
