

# Star of the Month!

## Mikayla Mae McMahon

So we finally started some activities. Just want to say thank you for this amazing curriculum. My little girl is only 21 months old and has spent most of this year and end of last year in hospital. She just loved what we did already and I finally feel as a mom and an ex teacher that my daughter is progressing.

My little girl suffered a 45 minute full fitting seizure at 11 months old and we nearly lost her that day. By God's grace she made it but what followed was a journey of ICU and high care and 5 more seizures after at that length of time with many tests and many medications. Unfortunately nearly every medication she had a side effect to. To cut a long story short in this time my daughter stopped talking stopped laughing and milestones were taking a while to reach. This year we learnt that her central nervous system is the problem so she's now finally getting the treatment she needs and we have been seizure free for 2 months now.

To see her fully engaging and capable of doing an activity and learning again and talking and laughing again has been the biggest blessing I could ever ask for. I am looking forward to doing the rest of activities with her. Thank you.

Chantal McMahon

“If it hasn’t been in the hand and body, it can’t be in the brain”

Messy play allows children to build, imagine, experience, investigate, explore, create, observe, predict and use their senses.

Best of all its heaps of fun!

Messy play is a necessity for all children, it helps develop all learning areas. A baby from as young as 5 months can engage in messy play.

Join FunkyKidz Messy Play classes now! - Make all the mess but not in your own home! It’s a win, win situation!

Each week we will have new activities where your little one can experiment and explore the different textures and colours.

What a perfect way to meet new moms and children, build up self-confidence and be encouraged to engage in social play.

Our program is excellent for encouraging social play, fine and gross motor skills it’s an excellent time for bonding with your little one.

Messy play is a necessity to help with all learning areas. We encourage babies from 5 months – children 6/7 years old to join our classes.

A baby is never too young to be stimulated! Enrol your little one now!

Why Messy Play?

It helps develop all learning areas, such as

\* Physical Development \* Communication and Language Development

\* Personal, Emotional and Social Development \*Intellectual Development

\* Mathematical Development  
Creative Development

In our Messy play classes we set up sensory stations and you can work your way around the stations with your little one, spending as much or as little time at each area as your little one likes. Activities from cloud dough to edible paint and spaghetti to jelly and mud. Our classes are colourful fun, stimulating and exciting offering the sensory experience your little one needs and the best part is that you won’t need to clean up!

Book your spot now!
